Just DON'T
Question Evolution!!

the cell requires over
1,000 processes to stay
alive - if one is over-
died - all 1,000+
must evolve at our
time = 000pp5

Sorry, but the Cambrian
Explosion basically kills the
theory. Not to mention the
fossil record, or the lack
of feasibility of practical
evolution even in single
organisms. The odds are so
astronomically against the classical
theory of evolution that present
organisms are trillions to one.

Darwin's evolutionary
theory is the only the-
ory backed with sound
scientific data. Evolution
can be seen on micro-
and macro level.

fossil record, or the lack
of transitional forms.
Evolution requires single-cell
organisms. The oldest life so
far is 3.5 billion years old. The classic
Theory predicts that the earliest
organisms are trillions to one.
